

## **NXT Energy Solutions Inc Calgary Canada**

NXT Energy Solutions Inc. (NXT), a publicly traded technology company based in Calgary AB Canada, provides wide-area geophysical survey services to the oil and gas industry utilizes its proprietary Stress Field Detection ("SFD®") system. SFD® used early in the exploration cycle can reduce the time, cost and risk associated with frontier exploration. NXT is currently experiencing growth in our international markets and require an SFD interpretation manager to lead and grow our interpretation team.

### **SFD Interpretation Manager**

NXT is seeking experienced interpreting geologist or geophysicists to lead and mentor our SFD® interpretation and integration team. This position is based in Calgary, Canada

#### **QUALIFICATIONS**

- BSc in Geology or Geophysics
- A minimum of five years interpretation experience in geological or geophysical interpretation
- Demonstrated ability to lead and mentor an interpretation team
- Talent for pattern recognition and experience with the integration of many different data types
- Talent and passion for hands-on interpretation
- Aptitude and work ethic required to learn and improve SFD® interpretation and integration methods
- Experience with interpretation, mapping, data analysis and signal processing software
- APPEGA member in good standing

If you are interested in this rewarding opportunity, please forward a resume via email to [careers@nxtenergy.com](mailto:careers@nxtenergy.com). Worldwide travel is to be expected. Latin American or other international experience as well as Spanish language competency is an asset.
