ENERGY EXPLORATION TECHNOLOGIES INC
Notes to the Consolidated Financial Statements
For the nine month period ended and as at September 30, 2007
(Unaudited) (Expressed in U.S. dollars)

1. Organization and Ability to Continue Operations

Energy Exploration Technologies Inc. ("*we*", "*company*" or "*NXT*") was incorporated under the laws of the State of Nevada on September 27, 1994.

NXT was continued from the State of Nevada to the Province of Alberta, Canada on October 24, 2003. The shareholders voted on and approved this change which moved the jurisdiction of incorporation from the U.S. to Canada.

We are a service provider to the oil and gas industry utilizing our proprietary Stress Field Detection (SFD) remote sensing airborne survey technology to identify areas with oil and natural gas production potential.

For the nine months ended September 30, 2007 we earned net income of \$134,555 and the net cash generated in operating activities was \$964,318. For the three months ended September 30, 2007, we incurred losses of \$613,953 and cash generated in operations was \$163,123. We had an accumulated deficit at September 30, 2007 of \$37,507,539. In the nine months ended September 30, 2007 the company had a significant economic dependence on one customer; this one customer represented over 95% of the company's total revenue.

Our ability to continue as a going concern ultimately dependent upon our ability to generate profitable operations and / or obtain additional financing to meet our obligations and repay liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with certainty. These consolidated financial statements do not include any adjustments to amounts and classifications of assets and liabilities that may be necessary should we be unable to continue as a going concern.

We are executing a business plan to allow us to continue as a going concern. We completed a survey contract for a fee in 2006 and 2007 and have further contracts to complete surveys in 2007. We cannot give assurance that we will be successful in executing this plan.

These consolidated financial statements are prepared using U.S. generally accepted accounting principles that are applicable to a going concern which assumes the realization of assets and the settlement of liabilities in the normal course of operations. Should this assumption not be appropriate, adjustments in the carrying amounts of the assets and liabilities to their realizable amounts and the classification thereof will be required and these adjustments and reclassifications may be material.

2. Significant Accounting Policies

Basis of Presentation

These interim consolidated financial statements have been prepared by management in accordance with generally accepted accounting principles of the United States of America in accordance with the same accounting policies and methods used in preparing the consolidated financial statements for the fiscal year ended December 31, 2006. These interim statements should be read in conjunction with the 2006 annual consolidated financial statements as they contain disclosure which is supplemental to our annual consolidated financial statements and accordingly certain disclosure normally required for annual financial statements has been condensed or omitted.

The Company's functional currency is Canadian dollars that are translated into United States dollars for reporting purposes. Significant accounts maintained in U.S. dollars are equity accounts as well as bank and short term investment accounts.

Earnings per Share

Per unit amounts are calculated using the weighted average number of shares outstanding. The Company follows the treasury stock method to determine dilutive effect of options and warrants and the as "if converted" method for preferred shares. Under the treasury stock method, only "in-the-money" dilutive instruments impact the diluted calculations. The dilutive effect of convertible securities is reflected in diluted earnings per share by application of the "if converted" method.

Recent Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109." Interpretation No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes". This interpretation is effective for fiscal years beginning after December 15, 2006. At the date of adoption we had no material unrecognized tax benefits and accordingly no adjustment is required, either before or after valuation reserve, of our deferred income tax assets or liabilities.

3. Note Payable

As of September 30, 2007 and December 31, 2006 the Company has a Canadian dollar denominated unsecured loan outstanding in the U.S. dollar equivalent amount of \$192,991 and \$194,137 respectively that is due to our President, CEO and Director. The loan bears interest of 7.0% per annum. During the first nine months of 2007 the Company was charged \$9,393 of interest expense (2006 - \$12,591). The maturity date for this loan was April 15, 2007 at which point the loan became due upon demand.

Unvested options outstanding as of September 30, 2007 and December 31, 2006 vest over the three year period starting from the date of grant dependant on the continued provision of services. The options vest one-third at the end of each of the first three years following the grant date. Options generally lapse, if unexercised, five years from the date of vesting.

The 2006 Stock Option Plan was approved on September 30, 2006 by Company shareholders at the Annual General Meeting. The 2006 Stock Option Plan set forth terms and conditions whereby options to purchase common shares of the Company can be issued to directors, officers and employees of the Company and to consultants retained by the Company. The aggregate number of common shares reserved for issuance under all option plans shall not, at time of the stock option grant, exceed ten percent of the total number of issued and outstanding common shares (calculated on a non-diluted basis) unless the Company receives permission of the stock exchange or exchanges on which the shares are then listed to exceed such threshold.

Issuance of options to any one participant shall not exceed five percent of the total number of issued and outstanding common shares in any 12 month period with consultants retained for investor relations duties further restricted to two percent in any twelve month period without permission of the stock exchange or exchanges on which the common shares of the Company are listed. Furthermore, shareholder approval is required for grants of options to insiders of options that exceed ten percent of the issued common shares within any 12 month period. No options shall be granted for a term exceeding five years without permission of the stock exchange or exchanges on which the shares of the Company are listed. All options issued under Plans are issued from treasury.

Compensation Expense Associated with Grant of Options

The grant date fair value is calculated using the Black Scholes option valuation model utilizing the following weighted average assumptions:

	For nine months ended September 30,	For the year ended December 31
	2007	2006
Expected dividends paid per common share	Nil	Nil
Expected life (years)	3	3
Expected volatility in the price of common shares (%)	60%	127%
Risk free interest rate (%)	4%	4%
Weighted average grant date fair market value per share	\$ 1.00	\$ 0.64

As of September 30, 2007 and December 31, 2006 there was \$560,997 and \$527,434 respectively of total unrecognized compensation cost related to non-vested share-based compensation awards granted under the stock option plans. This cost will be recognized over the remaining vesting period.

The intrinsic value of options exercised at the exercise date for the nine months ended September 30, 2007 was \$1.88 and for the year ended December 31, 2006 was \$0.67.

9. Related Party Transactions

Summarized below is information concerning related party transactions and balances not disclosed elsewhere in these consolidated financial statements for the nine months ended September 30, 2007 and the year ended December 31, 2006.

	For the nine months ended September 30,	For the year ended December 31,
	2007	2006
Collective wages, fees and benefits paid to executive officers of NXT, who were also directors of NXT	\$ 125,362	\$ 162,027
Interest expense recognized or paid to related parties and officers	\$ 9,393	\$ 14,678

A Director of NXT is also an officer for one of our SFD survey clients. In the first quarter of 2007 we received \$259,830 from this client in payment for accounts receivable outstanding at December 31, 2006.

10. Commitments and Contingencies

On November 27, 2002 we were served a Statement of Claim. The plaintiff alleges that NXT failed to pay him compensation of \$74,750, plus interest, under a consulting agreement and further alleges that NXT, without lawful justification, obstructed him from trading his shares of NXT. On December 10, 2002 we filed our Statement of Defense. The plaintive is a past President and director of NXT. The outcome of the claim is not determinable. Management believes the claim is without merit and we intend to defend ourselves against the claim.

On March 18, 2003 we were served a Statement of Claim naming NXT and others as defendants. The plaintiffs allege that the defendants were negligent and in breach of a ferry flight contract under which an aircraft was to be delivered to Greece. The aircraft crashed enroute. The Plaintiffs are seeking, among other things, damages in the amount of Cdn. \$450,000 or loss and damages to the aircraft and cargo, and damages in respect to search and rescue expenses, salvage, storage, transportation expenses and pollution and contamination expenses. NXT was not party to the Ferry Flight Contract. The outcome of the claim is not determinable. Management believes the claim is without merit and we intend to defend ourselves against the claim.
